AUTHOR INDEX

Abe, K., see Kimura, K. (929) 203
Allard, W.J., Gibbs, E.M., Witters, L.A. and Lienhard, G.E.
The glucose transporter in human fibroblasts is phosphorylated in response to phorbol ester but not in response to growth factors (929) 288
Amiel, C., see Friedlander, G. (929) 311
Ang, S.-G., see Poulter, L. (929) 296
Aue, W.P., see Nicolay, K. (929) 5

Bacchus, R.A., see Frandsen, E.K. (929) 74
Baldys-Waligorska, A., Pour, A., Moriarty, C.M. and Dowd, F.
The effect of calcium and cyclic AMP on amylase release in digitonin-permeabilized parotid gland cells (929) 190
Berg, T., see Nenseter, M.S. (929) 25
Berggren, P.-O., see Nilsson, T. (929) 81
Bhargava, M.M., see DasGupta, A. (929) 1
Blight, G.D. and Morgan, E.H.
Transferrin and ferritin endocytosis and recycling in guinea-pig reticulocytes (929) 18
Blomhoff, R., see Nenseter, M.S. (929) 25
Bodnaryk, R.P., see Hayakawa, Y. (929) 117
Böhm, K.J., Vater, W., Steinmetzer, P. and Unger, E.
Structural dynamics within mixed populations of microtubules and protofilament ribbons (929) 154
Borghgraef, R., see De Smedt, H. (929) 103

Carlsson, J., see Sandström, B.E.R. (929) 148
Carter, M.G., see Shukla, S.D. (929) 134
Chu, S.-h.W., Geyer, R.P. and Walker, W.A.
myo-Inositol action on gerbil intestine: alterations in alkaline phosphatase activity upon phosphatidylinositol depletion and repletion in vivo (929) 220
Cohen, J.S., see Megnin, F. (929) 173
Cohen, P., see Holmes, C.F.B. (929) 208
Cohen, P., see Poulter, L. (929) 296
Conboy, C.B., see Wyrwicz, A.M. (929) 271
Cong, J., see Rodgers, G.M. (929) 263

DasGupta, A. and Bhargava, M.M.
Synthesis of subunits of ligandin by isolated hepatocytes (929) 1
De Kruijff, B., see Nicolay, K. (929) 5
De Smedt, H., Parys, J.B. and Borghgraef, R.
Calmodulin and calmodulin-binding proteins in the renal brush border (929) 103
Dowd, F., see Baldys-Waligorska, A. (929) 190
Downer, R.G.H., see Hayakawa, Y. (929) 117

Eisele, P., see Wyrwicz, A.M. (929) 271
Ekdahl, K.N. and Ekman, P.
Effects of epinephrine, glucagon and insulin on the activity and degree of phosphorylation of fructose-1,6-bisphosphatase in cultured hepatocytes (929) 318
Ekman, P., see Ekdahl, K.N. (929) 318
Eliezer, N., Hurd, C.B. and Moudgil, V.K.
Immunologically distinct binding molecules for progesterone and RU38486 in the chick oviduct cytosol (929) 34
Eskild, W., see Nenseter, M.S. (929) 25

Faustino, P.J., see Megnin, F. (929) 173
Flamigni, F., see Meggio, F. (929) 114
Frandsen, E.K. and Bacchus, R.A.
Glucagon receptor binding, dissociation and degradation in rat liver plasma membranes studied by a microperifusion method (929) 74
Franklin, C.C., see Shukla, S.D. (929) 134
Friedlander, G. and Amiel, C.
Protein kinase C activators and bradykinin selectively inhibit vasopressin-stimulated cAMP synthesis in MDCK cells (929) 311

Geyer, R.P., see Chu, S.-h.W. (929) 220
Gibbs, E.M., see Allard, W.J. (929) 288
Goll, D.E., see Rodgers, G.M. (929) 263
Gordon, P.B., Kovacs, A.L. and Seglen, P.O.
Temperature dependence of protein degradation, autophagic sequestration and mitochondrial sugar uptake in rat hepatocytes (929) 128
Guarnieri, C., see Meggio, F. (929) 114

Hayakawa, Y., Downer, R.G.H. and Bodnaryk, R.P.
Taurine inhibits octopamine-stimulated cAMP production in cockroach haemocytes (929) 117
Haynes, D.H., see Jy, W. (929) 88
Heino, J., see Kähäri, V.-M. (929) 142
Hellman, B., see Nilsson, T. (929) 81
Holmes, C.F.B., Tonks, N.K., Major, H. and Cohen, P.
Analysis of the in vivo phosphorylation state of protein phosphatase inhibitor-2 from rabbit skeletal muscle by fast-atom bombardment mass spectrometry (929) 208
Howell, S.L., see Jones, P.M. (929) 302
Hurd, C.B., see Eliezer, N. (929) 34

Ichida, T., see Takuma, T. (929) 14
Ishii, H., see Kuboki, M. (929) 164

Jones, P.M., Keaney, J.E. and Howell, S.L.
